

# Snowflake V1

The first version of my snowflake was developed by playing with a flower design. However, I ended up with a shape that had more in common with a star than a flower. So I decided to shape it into a snowflake, which worked far better.

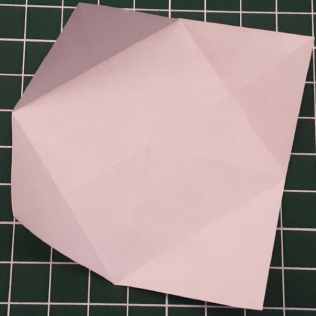

For folding this snowflake, I recommend duo paper, 15x15cm.

1) Fold and unfold in half, crease along the diagonals

27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44

2) Fold the corners to the center and unfold

3) Turn the paper around, then fold the edge to the middle and unfold repeat on all sides

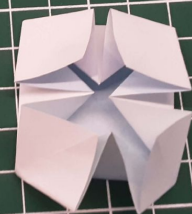

4) Squash fold using the existing creases

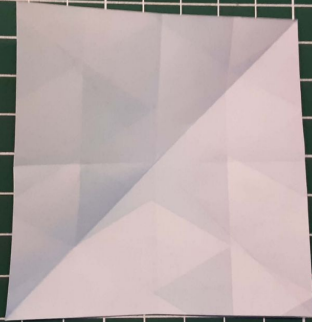

5) Squash fold using the existing creases

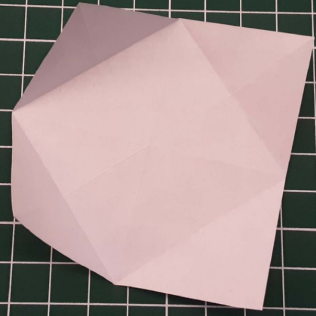

6) Repeat on the two remaining corners

1) Fold and unfold in half, crease along the diagonals

2) Fold the corners to the center and unfold

3) Turn the paper around, then fold the edge to the middle and unfold repeat on all sides

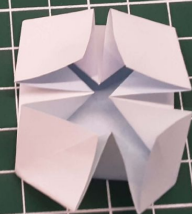

4) Squash fold using the existing creases

5) Squash fold using the existing creases

6) Repeat on the two remaining corners

27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44

7) Fold the flaps on the corner to the diagonal

8) Petal fold, in progress

9) Petal fold, finished

10) Open the corner to flip the edge to the other side

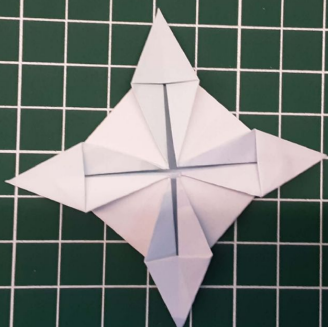

11) Repeat on the other side

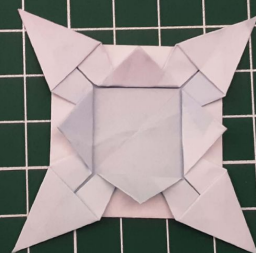

12) Repeat on the remaining corners

13)

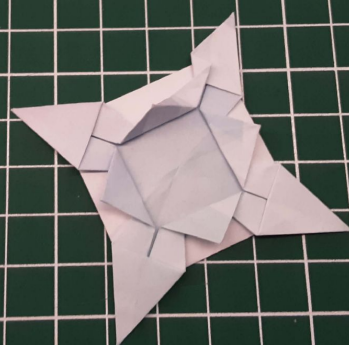

14) Fold the corners from the center to the sides

15) Prepare to swivel fold:  
Make a mountain fold connecting the circled points

16) Bring the crease to the diagonal

17) Flatten the corner

18) Repeat on the remaining corners

19) Collapse like a preliminary base

20) The result looks like this

21) Squash fold

22) Pull out the little corner while closing the flaps, push the fold in the middle of the flap upwards

23) The result of step 22

24) Repeat on the three remaining flaps

25) Open the model...

26) ... to petal fold a long flap downwards

27) Turn around and repeat step 25 -26

28) Fold the long flap up, repeat behind

29) Swing the layers around to work on the other two long flaps

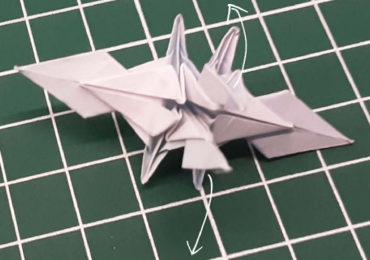

30) Petal fold down/ repeat step 25 - 26

31) Repeat step 25- 26 on the other side

32) Open the model

33) Finished Snowflake
